

TRAINING ANNOUNCEMENT

Practical Pipelines, is a unique multi-media training that contains actual 911 and response footage of the Danielle Dawn Smalley pipeline incident. This brief multi-media training provides information specific to your county pipelines and also reviews the following key messages:

- Pipeline Systems Today
- Pipeline Product Characteristics and Hazards
- Pipeline Locations and Operators in Your County
- Pipeline Damages in Texas
- Consequences of Unpreparedness
- Emergency Response

Practical Pipelines

Trainees will leave with a new perspective of pipelines that they can apply to their everyday mission of public safety, access to materials and resources for pre-planning, CEU credit potential and much more.
